Weiwei Lin

Front-End Engineer

Education

Northern Illinois University, DeKalb IL

2018-2022

- Bachelor of Science in Computer Science
- Emphasis: Software Development
- Courses: Programming Language, Data Structure, Database, Algorithm, Computer Architecture and System Organization, Intro to Software Engineering

Projects

KanBan

Aug 2023

- Tech stack: React, Tailwind
- Kanban is a challenge on Frontend Mentor that provides design mockups for various pages. In this challenge, I utilized React and Tailwind to complete the page design and implement user interaction features between pages.

NextMusic

Mar 2023

- Tech stack: React, NextJS, Tailwind
- NextMusic is a web application that clones the basic web version of Spotify, allowing users to log in to their Spotify accounts and search for songs in real time. Leveraging the Spotify API, users can play their liked songs, playlists, and albums directly within the app.

ToBuys

Jan 2023

- Tech stack: React JS, Bootstrap 5
- Developed application that facilitates recipe search and organization, enabling users to store recipes and ingredients in customizable sections. Implemented a convenient feature that allows users to add ingredients to a shopping list for reminders, either by manual input or direct selection from recipes.

ShopWise

Jan 2023

- Tech stack: React JS, Typescript, Redux, Sass
- Developed an eCommerce web application that utilized an open source API to render products and Redux toolkit as an efficient state manager for shopping carts.

Work Experience

Supply Chain Coordinator – Anker

Aug 2023 - Oct 2023

- Scheduled and coordinated transportation between warehouses.
- Maintained data records, tracking goods, transportation, and exceptions.

Campus Dining Service – Northern Illinois University

Aug 2021 - May 2022

- Followed recipes and customer requests to prepare meals.

Delivery driver – FuanTuan

Jun 2021 - Aug 2021

- Picked up the food at the restaurant and delivered it to customers.
